

Vocational Studies

One morning a week at Local Colleges

To gain a Level One Qualification

PERSHORE
COLLEGE

Animal Welfare

This course is a practical based study programme which includes some classroom based theory learning. You will have the opportunity to develop the necessary skills to assist with the care and health and well-being of a wide range of animals safely and with confidence, including domestic mammals, livestock and exotic mammals, reptiles, amphibians, invertebrates and fish. In addition to developing your practical skills and animal husbandry knowledge, this course aims to develop your confidence working with others and your study skills to prepare you for further study.

EVESHAM
COLLEGE

Motor Vehicle

If you love cars and enjoy fixing things, this could be a great course for you.

Motor vehicle technicians repair and service cars, vans, motorbikes, lorries and coaches. They work on all vehicle mechanics and electrics

From engines and exhaust systems to air-conditioning and security.

This is a practical course with the addition of classroom theory.
