

What do I need to know about festivals, parties, clubbing and drugs?

STARTER:

'Teens are only young once. They need to take risks or else they'll never learn from their mistakes.' Is this good advice? Explain why you do or don't think this advice is helpful.

What risks do I need to know about at festivals, parties and clubbing?

Learning Outcomes:

Explain the risks in detail and also describe the actions you can take to minimise harm amongst friends who choose to take risks.

<https://www.youtube.com/watch?v=JTkKlewcArg>

Task Three:

Watch the clip and complete your choice of challenges on your worksheet.

<https://www.youtube.com/watch?v=NcEoMUytug4>

1. What is the main drug that people take at this festival?
2. Why do you think that the government has approved the drug tests happening at this festival?
3. What are the advantages of using a drug-testing programme like the one in this video?
4. Do you think that the drug testing programme is encouraging people to take drugs? Explain your answer.
5. 'There is no quick test for fentanyl' - what is this drug, and why is it a real disadvantage that there is no quick test for it? Explain your answer fully.

Plenary:

In groups discuss the question below and be ready to feed back to the class

- *“There shouldn’t be drug testing kits available to party-goers. This is just encouraging the taking of drugs in the first place.”*
- To what extent do you agree with this statement?
