

Pershore High School Geography Learning Journey

How have plants and animals adapted to cold environments?

Should we protect the rainforest?

What are the impacts of deforestation?

How have plants and animals adapted to the rainforest?

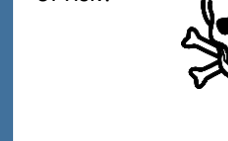

How do we respond to the effects of a tropical storm?

What causes tropical storms?

Why do people still live in areas of risk?

How do we respond to the effects of an earthquake?

What is it like in a cold environment?

What is it like in a tropical rainforest?

How have plants and animals adapted to the rainforest?

How do we respond to the effects of a tropical storm?

What causes tropical storms?

What is global atmospheric circulation?

What is plate tectonics theory?

How do we respond to the effects of an earthquake?

How is UK transport improving?

How is the UK moving towards a post-industrial economy?

What are the opportunities and challenges to developing in Alaska?

How does change impact a small-scale ecosystem?

Where are the world's biomes?

What is the evidence for climate change?

Is the UK's weather becoming more extreme?

Does climate change naturally?

How do we manage climate change?

What is the north-south divide?

How is UK transport improving?

How is the UK moving towards a post-industrial economy?

Should we protect cold environments?

How can cities become more sustainable?

What are the features of an ecosystem?

Are humans causing climate change?

How do rivers change as you move downstream?

How and why is the UK changing?

How is the UK moving towards a post-industrial economy?

How is the UK moving towards a post-industrial economy?

How is the UK moving towards a post-industrial economy?

How is the UK moving towards a post-industrial economy?

ISSUE EVALUATION – How can we respond to real world debates?

What opportunities does Birmingham have?

What are the challenges for people in Birmingham?

Where are the UK's key physical features?

What are the fluvial processes?

How do rivers change as you move downstream?

How and why is the UK changing?

How is the UK moving towards a post-industrial economy?

How is the UK moving towards a post-industrial economy?

How is the UK moving towards a post-industrial economy?

Why is Birmingham important?

Where is the UK's population?

What are the challenges for people in Birmingham?

Where are the UK's key physical features?

What are the fluvial processes?

How do rivers change as you move downstream?

How and why is the UK changing?

How is the UK moving towards a post-industrial economy?

How is the UK moving towards a post-industrial economy?

How is the UK moving towards a post-industrial economy?

How can planning create a better life for the poor?

FIELDWORK: Birmingham

How has Lagos' urban growth caused challenges?

How has Lagos' urban growth caused challenges?

How has Lagos' urban growth caused challenges?

How can we reduce flood impacts?

How did the last Ice Age help to shape the UK?

How can we close the development gap?

How have TNCs influenced Nigeria?

How have TNCs influenced Nigeria?

How has Lagos' urban growth caused opportunities?

FIELDWORK: Cardingmill Valley

How was the Lake District shaped?

How is the Lake District used?

How are glacial landforms created?

What are the glacial processes?

How can we close the development gap?

How can we close the development gap?

How should countries develop?

How should countries develop?

What is the pattern of urban change?

How is the Lake District used?

How are glacial landforms created?

How are glacial landforms created?

How are glacial landforms created?

How are glacial landforms created?

How can we measure development?

How can we measure development?

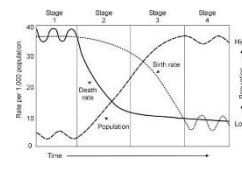

How can we measure development?

How can we measure development?

YEAR 11

YEAR 10

'Geography is the subject which holds the key to our future.' - MICHAEL PALIN

How is Asia being transformed? How is Asia developing into the most important region? How does India rely on a monsoon climate? How is urbanization changing lives in India? Where do we find natural resources? Is the global distribution of resources fair? What is food insecurity?

TRANSFORMING ASIA, INVESTIGATING INDIA

RESOURCE MANAGEMENT

Is disease our greatest threat? Is the future Nuclear? How is China creating an interdependent world? Should we frack? How does life adapt to the mountain biome? Where are the Earth's resources? How will the world end? What happened in Nepal in 2015? How can we manage natural hazards? How are the UK's demands for Food, Water & Energy changing? What is the problem with Wildfires? How is food distributed? How can we reduce food insecurity? How can food supply be more sustainable? How do natural disasters impact different countries? How is the Earth split like a puzzle? When does a natural hazard become a disaster?

APOCALYPSE NOW?

HUMANS VS NATURE

Can population growth be managed? What problems does population growth cause? Why does Florida hate BP? Is Climate Change our biggest threat? Is a Supervolcano the most powerful natural force of all? What happened in California? Why is a Tsunami so devastating? What causes volcanoes? What is it like in a hot desert? What is life like in the desert? What are the challenges of desertification? What are superpowers? What is happening in the South China Sea? What are coastal conflicts? How do waves shape the coastline? FIELDWORK: Berrow Sands

YEAR 9

EXPLORING ECOSYSTEMS

SUPERPOWERS

DIVING INTO COASTS

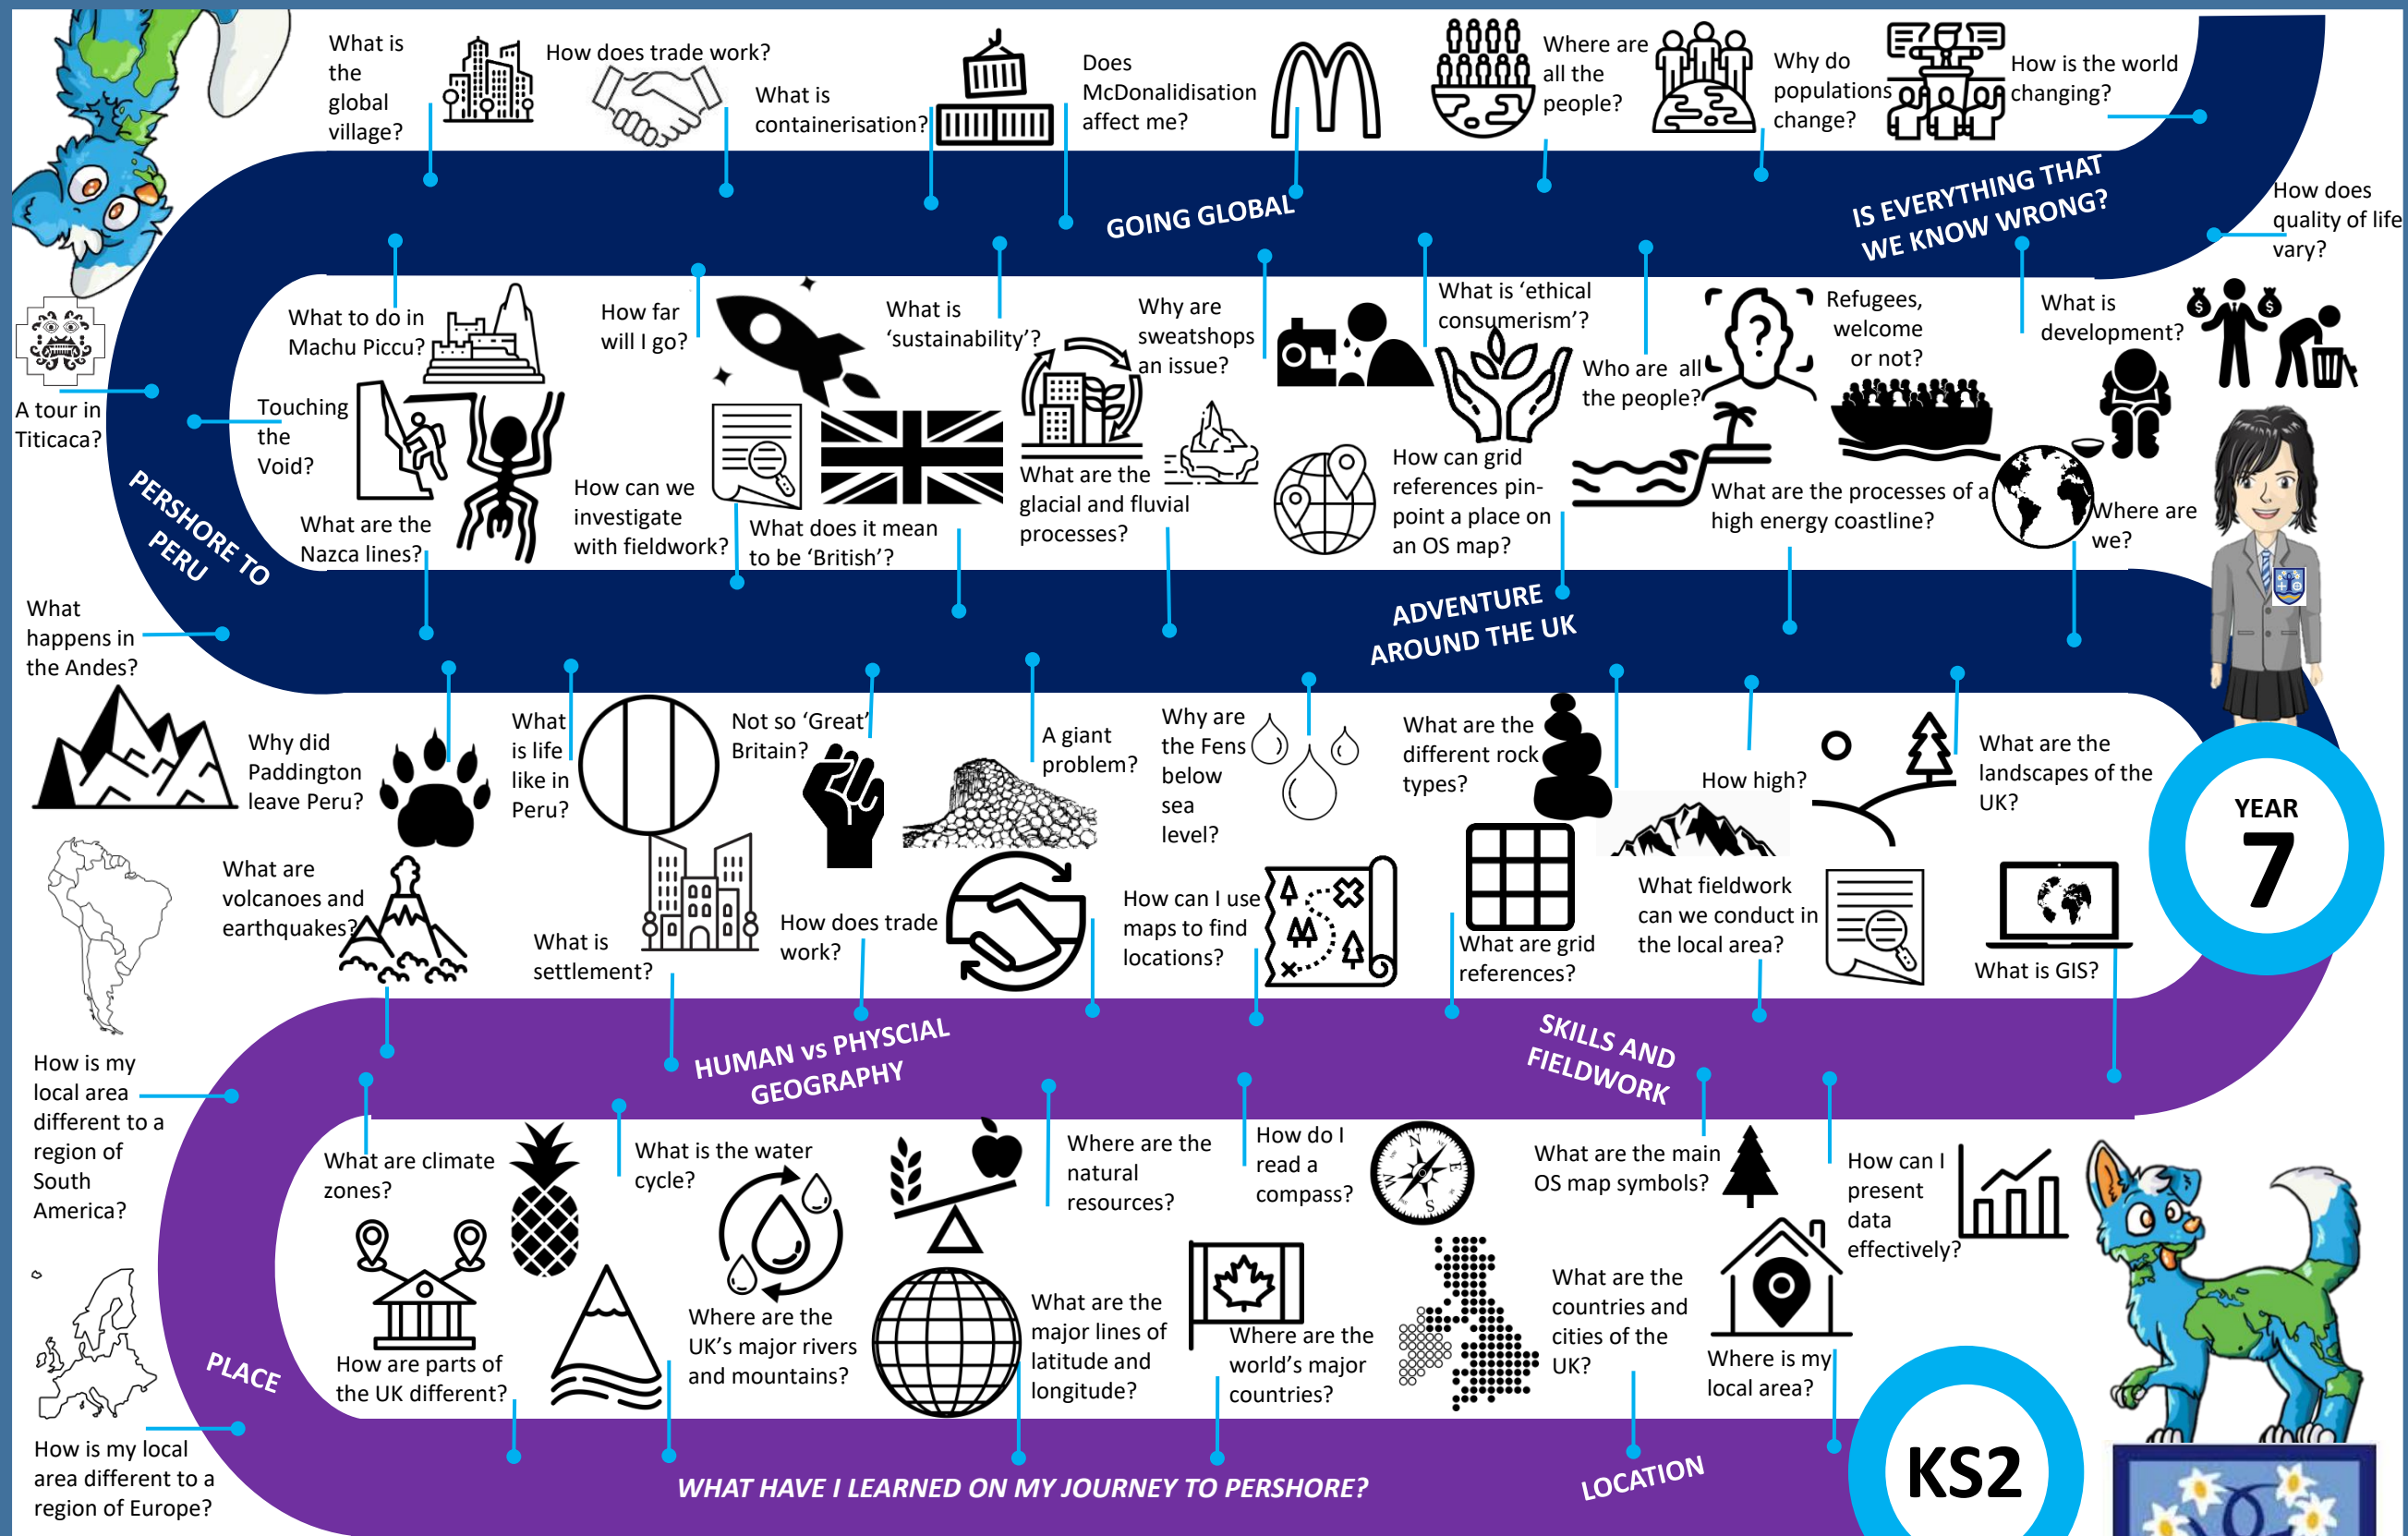

How can we protect fragile ecosystems? Adapt, Adapt, Adaptations?! How can we stop deserts growing? Who are the emerging economies? How is Global Fashion a problem? What are Russia doing in the Arctic? What is longshore drift? What is erosion? Where have all the fish gone? What is tundra like? What are ecosystems? What is life like in a slum? Why is Africa so unique? How were Africa's borders shaped? What is a Tropical Storm? Why do climates vary across the Earth? Why does it rain? Why is the UK's weather so unique?

ADVENTURE INTO AFRICA

WONDERING ABOUT THE WEATHER

Should we use Antarctica? How can we use cold environments? Why are the Poles so cold? What is 'Dangerous Migration'? What is happening in the Horn of Africa? What are the misconceptions of Africa? How can we conduct a fieldwork investigation into microclimates? How can we forecast the weather? What makes weather extreme? What is air pressure?

YEAR 8

'The study of geography is about more than just memorizing places on a map. It's about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it's about using all that knowledge to help bridge divides and bring people together.' – **BARACK OBAMA**
